

1ST REFORGER KORPS
SPECIAL OPERATIONS COMMAND
INTERNAL USE

REF: 1RK-SOC/1RK-SOP-02
DATE: 17/01/1986
LOCATION: Everon

Standard Operating Procedure:

02 Patrol Roles & Std. Movement

Scope: All dismounted patrol operations

01 - PURPOSE

To standardise patrol composition, role responsibilities, and default movement, ensuring that:

- Every player knows their job without instruction
- Patrols move safely and predictably
- New players integrate immediately
- Leaders control intent, not individuals

02 - PATROL STRUCTURE

A standard 1RK patrol consists of four players:

1. Patrol Lead
2. SAW Gunner
3. Grenadier
4. Rifleman

Patrols are always divided into two fixed buddy teams as per SOP-01.

03 - ROLE RESPONSIBILITIES

03.1 - Patrol Lead Primary responsibility:

Command, control, and coordination. The Patrol Lead prioritises awareness and control over shooting.

Duties:

- Controls patrol movement and pace
- Selects routes and formations
- Issues clear, simple orders
- Controls contact response
- Carries and operates the primary radio
- Uses tracer magazines for fire control and identification when required

03.2 - SAW Gunner Primary responsibility:

Suppression and fire superiority. The SAW is an asset of the Patrol team and not an individual weapon.

Duties:

- Provides sustained suppressive fire
- Anchors the patrol during manoeuvre
- Covers the primary threat axis
- Manages ammunition state and provides reports to Patrol lead

Ammunition:

Minimum carried load: 800 rounds (Additional SAW ammunition distributed across the patrol)

03.3 - Grenadier Primary responsibility:

Area effects and support fires.

Duties:

- Engages enemies in cover or defilade
- Employs 40mm munitions on order from Patrol Lead
- Supports break contact and manoeuvre
- Covers assigned flank
- Carries one 200-round SAW ammunition box

03.4 - Rifleman Primary responsibility:

Security and sustainment.

Duties:

- Covers assigned arc
- Maintains spacing and discipline
- Reinforces suppression
- Assists with casualty movement
- Carries additional SAW ammunition as assigned

04 - RADIO RESPONSIBILITIES

- Primary radio: Operated by Patrol Lead
- No dedicated radioman at patrol level
- In an 8-man section:
 - Lead Patrol monitors the primary net
 - Second patrol monitors the secondary net

05 - STANDARD MOVEMENT FORMATION (DEFAULT)

Formation:

Determined by Patrol Lead.

Spacing:

Minimum 3-10 metres between patrol members - Increased in open terrain, rReduced in dense or urban terrain

Security Arcs

- Patrol Lead: Direction of movement
- SAW Gunner: Primary threat axis
- Grenadier: Opposite flank
- Rifleman: Rear or assigned flank

06 - STANDARD PATROL MOVEMENT PROCEDURE

1. Patrol arranged in Formation
2. Patrol Lead sets direction and pace
3. Patrol moves at controlled pace taking into account team size, terrain and risk
4. On halt:
 - a. All members stop
 - b. Buddy teams tighten spacing
 - c. Assigned arcs are covered
5. Movement resumes only on Patrol Lead command

08 - COMMON ERRORS

- Freelancing outside buddy teams
- SAW moving without support
- Everyone scanning the same direction
- Patrol Lead acting as a rifleman
- Ad-hoc role swapping

09 - GUIDANCE FOR NEW PLAYERS

If you are new:

1. Attach to a patrol
2. Accept the role given
3. Stay with your buddy team
4. Cover your arc
5. Follow Patrol Lead orders

10 - END STATE

- When SOP-02 is applied correctly:
- Patrols move smoothly and quietly
- Roles are understood without explanation
- New players integrate immediately
- Leaders focus on decisions, not micromanagement
